

## Item specifics

Brand Name: SAIFULI

Applicable gas: Coal Gas/Natural Gas/LPG

working current: below 156mA

working temperature: -10 to 50 degree

Alarm density:: 6%LEL

Alarm mode: Sound/LED flash/NC/NO output

Model Number: SFL-818

Wokring voltage: 9-16VDC

Alarm speaker volume: 70DB at 1m

Working relative humidity: less than 95%RH

Alarm respond delay: below 30S

Alarm density error: below 5%LEL

## Product Description

### Instruction

1. Multi-usage
2. intelligence
3. lower power consumption
4. Anti-error alarm
5. Anti-leakage alarm

Thanks for using our SFL-818 Home gas alarm detector!It is in accordance with(CJ3057-1996) standard of gas leakage detectors town construct profession of people's republic of china,(GA127-1996)gas leakage standard public security standard of people's republic of china » strictly.For safety, please read product instruction carefully before using the SFL-818.

### Function

- 1.Adopted special gas sensor, never obtuse ,lower consumption, prolong usage life
- 2.particular design , detects coal gas ,nature gas ,LPG .
3. single chip ,self-test, anti-error alarm, stop leakage alarm, steady and standby.
- 4.independent & network optional, flash& sound alarm, NO/ NC output, auto reset .
5. installation optional : wall mounted / ceiling mounted
6. Do not alarm when electrify in three minutes.
